

Dallas, TX, December 10, 2006 -Virtual Surveillance, market leader in digital video surveillance and management systems, today announced that Fort Worth ISD has chosen Virtual Surveillance's Enterprise Video Management System (EVMS) to be implemented throughout its school district.

The Incident Management reporting software will be utilized to capture incidents. The powerful search and reporting capabilities will then help school authorities in identifying trouble areas.

Virtual Surveillance is an international provider of state-of-the-art intelligent video surveillance systems. Virtual Surveillance is a market leader in digital video surveillance systems used for surveillance and protection of multi-site operations. As a direct importer of digital surveillance and security products, Virtual Surveillance provides extremely competitive pricing while maintaining rigorous product quality and reliability standards.
